SOVA Security Platform

Real-Time Security Operations, Guard Tours, Incident Reporting & Property Intelligence

1 Live Officer Tracking

Real-time GPS visibility, route progress, location history, and supervisor awareness.

2 Smart Guard Tours

NFC/RFID, QR, Bluetooth beacon, and touchless checkpoint verification with missed-point alerts.

3 Mobile Incident Reporting

Photos, video, audio, witness statements, notes, categories, timestamps, and electronic signatures from the field.

4 Automated Safety Alerts

Man-down, inactivity, emergency, panic, escalation, and real-time supervisor notifications.

5 Command Dashboard

Dispatch, post orders, shift activity, officer status, property overview, and operational control from one platform.

6 Client-Ready Reports

Daily activity reports, tour reports, incident packages, analytics, charts, timestamps, and audit-ready records.

7 Team Communication

Broadcast messages, direct instructions, emergency procedures, push-to-talk coordination, and post order updates.

8 Advanced Property Intelligence

Trends, compliance visibility, missed tasks, performance insights, recurring incidents, and risk reduction.

Scan. Verify. Continue.
Touchless checkpoints ensure accountability and accuracy at every post.

Report. Document. Resolve.
Capture incidents in real time with rich media and complete details for faster resolution.

Alerted. Aware. Act Fast.
Instant alerts and escalation keep supervisors informed and officers safe.

Communicate. Coordinate. Control.
Seamless team communication and dispatch coordination when it matters most.

Schedule a Demo

See your entire security operation in real time.
